EXPERIENCE

Backend Developer · Crysta IVF

ACTIVE · OCT 2024 — PRESENT

- Architected a scalable **Django & DRF** backend for an Employee Asset Management System — **10,000+ records, 99% data accuracy**.
- Built scoped, revocable **token-based API auth** for third parties, plus **throttling & rate limiting** on high-traffic endpoints.
- Integrated the **Hospital Management System with the CRM** (bi-directional sync); led backend for the Crysta IVF website & CRM with **RBAC**.
- Integrated **Meta CAPI**, **Exotel** calling (**+40%** response efficiency), **Zigment & Pixel AI** chatbots (**+50%** automated engagement) and SMS / RCS messaging; **MoEngage** in progress.
- Built **Appointment Book** APIs with slot-management logic (**-25%** booking errors) and a **Break Management System** (**+30%** workforce monitoring).
- Optimized APIs with raw SQL and efficient serializers (**~50%** faster); cron jobs automate data syncing, follow-ups & notifications.
- Deployed on **AWS EC2 with Gunicorn & Nginx**; monitored logs and production performance for stable releases.

Backend Developer · TrafikSol ITS Solutions

6 MOS · MAY 2025 — OCT 2025

- Built Django services and REST APIs for intelligent traffic solutions.

Full Stack Developer · Freelance

ACTIVE · DEC 2025 — PRESENT

- End-to-end products for clients: CRM systems, AI tools and modern web apps.
